**Instructions for Authors — Summary**

Submit a **6-page Extended Abstract** (double-blind, anonymized) via the Springer Meteor platform. If accepted, submit a **camera-ready paper (max 12 pages)** using the Springer CCIS template for publication in the CCIS proceedings. All submissions are peer-reviewed, plagiarism-checked, and must include alt text for figures. A License-to-Publish agreement must be signed before production.

---

**Full Text — Submission Guidelines**

Authors are invited to submit an Extended Abstract presenting original and unpublished research that is relevant to the themes of the conference.

Upon acceptance of the Extended Abstract, authors will be required to submit a final camera-ready paper for publication in the Springer Communications in Computer and Information Science (CCIS) proceedings.

All submissions must be completed through the Springer Meteor platform available at this link: https://meteor.springer.com/digitalecosystem4h.

If an Extended Abstract is accepted, authors are required to submit a final camera-ready paper which will be included in the Communications in Computer and Information Science (CCIS).

All submissions must comply with the Springer CCIS formatting guidelines (downloadable).

---

**Extended Abstract Instructions**

**Format and Length:** The Extended Abstract must be prepared using the official Springer CCIS template and must have a fixed length of **6 pages**, including figures, tables, and references (references may occupy a maximum of one page). All submissions must strictly follow the Springer CCIS formatting guidelines.

Since the review process is **double-blind**, the submitted manuscript must be fully anonymized and must not contain any information that could identify the authors, including names, affiliations, acknowledgments, or self-identifying references.

**The manuscript must include:**

- Title of the paper
- Abstract and Keywords
- Introduction (problem addressed and state of the art)
- Description of the proposed methodology and contribution

- Results achieved and their applicability
- Conclusions
- References

**The Extended Abstract should clearly demonstrate:**

- The originality of the contribution
- The relevance of the work to the conference topics
- The scientific and/or technical contribution with respect to the state of the art

Authors must ensure full compliance with the Springer CCIS structure, formatting rules, citation style, and accessibility requirements (including alternative text for figures, where applicable).

---

**Templates (Springer CCIS)**

Authors must use the official Springer CCIS templates. Available templates: Microsoft Word Proceedings Template, Microsoft Word 2003 Proceedings Template, LaTeX Proceedings Template, and Overleaf Online Proceedings Template.

**Important:** Springer templates contain guidance text and comments. All guidance text must be removed before submission. Manuscripts containing template instructions may be returned for correction or excluded from publication.

---

**Review Process**

All Extended Abstracts will undergo a **double-blind peer-review** process conducted by at least two independent reviewers. Submissions must be fully anonymized: no author names/affiliations, no self-identifying references, and statements like "In our previous work…" should be reformulated neutrally.

Evaluation criteria: relevance to conference topics, scientific quality and technical soundness, novelty and originality, and clarity of presentation. All submissions are subject to plagiarism and self-plagiarism checks.

---

**Final Paper (Camera-Ready) Instructions**

If accepted, the final paper must: not exceed **12 pages** (including references), be prepared using the same Springer CCIS template, and incorporate the reviewers' comments and suggestions. The final manuscript will undergo plagiarism screening. Only fully compliant papers will be included in the proceedings.

**Accessibility Requirements:** All accepted papers must include Alternative Text (Alt Text) for all non-text content. Authors may use the Alternative Text Assistant Tool in Meteor during upload.

**License-to-Publish Agreement:** Must be completed and signed by the corresponding author via DocuSign. Papers cannot be included in proceedings unless the agreement is signed.

**Publication Ethics:** All work must be original, not previously published, and not under review elsewhere. All sources must be properly cited.
